National Address Database

The U.S. Department of Transportation (USDOT) and its partners from all levels of government recognize the need for a National Address Database (NAD). Accurate and up-to-date addresses are critical to transportation safety and are a vital part of Next Generation 9-1-1. They are also essential for a broad range of government services, including mail delivery, permitting, and school siting. To meet this need, USDOT partners with address programs from state, local, and tribal governments to compile their authoritative data into the NAD.

To learn more about addresses and the National Address Database please visit this StoryMap.
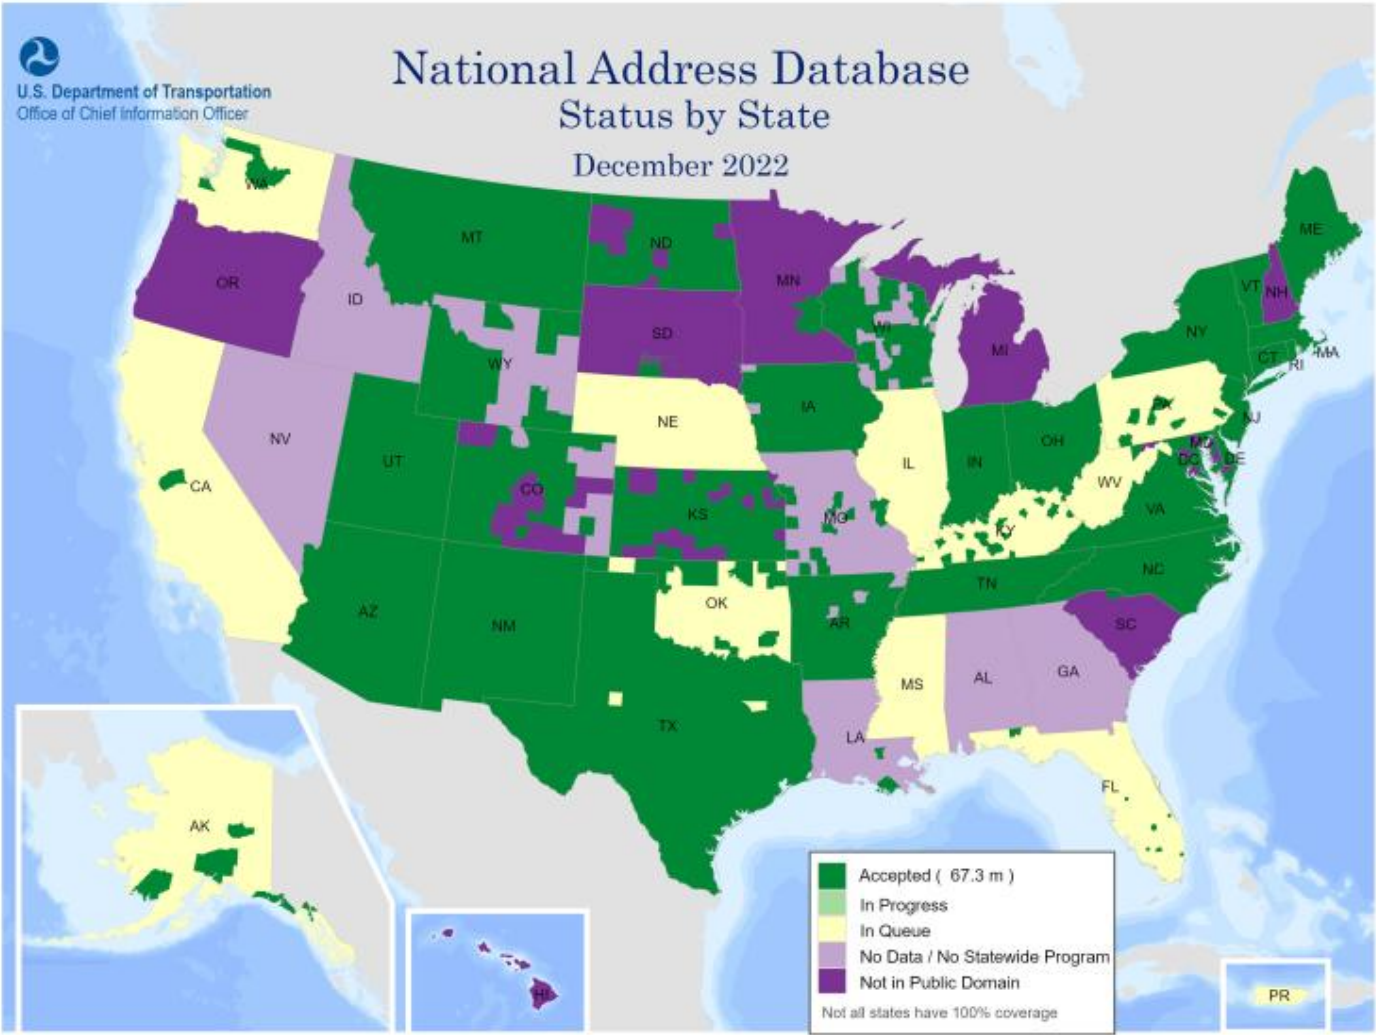

Release 12 of the NAD, containing 67.3 million records, is now available for download from the link at the top left of this page.

If you represent a state or local government and would like to include your address points in the NAD, please contact us at nad@dot.gov.

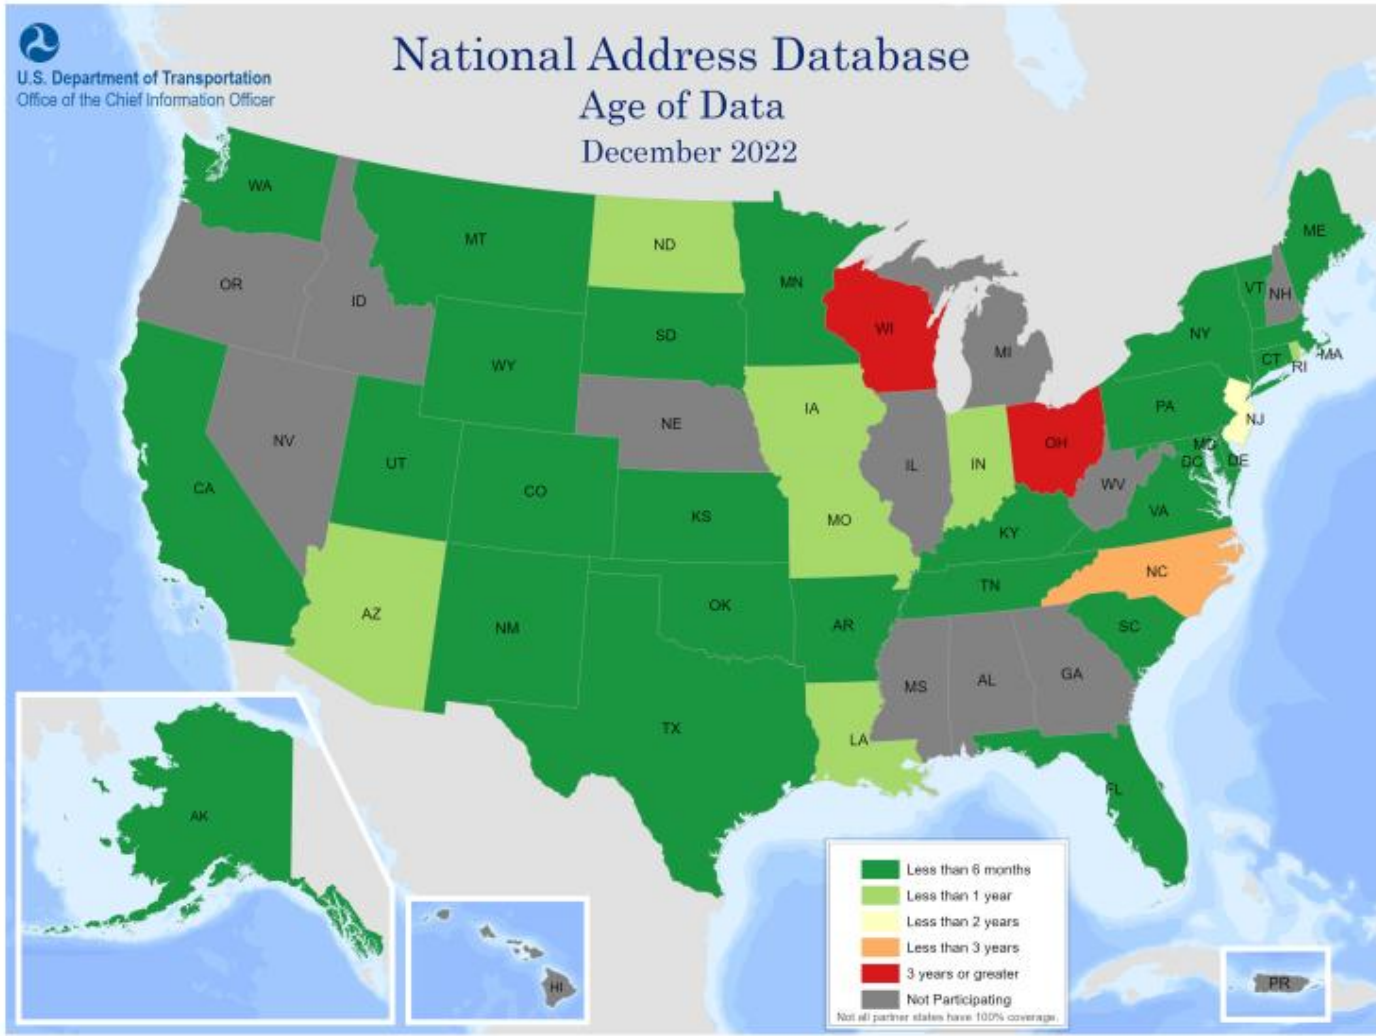

USDOT National Address Database (NAD) Map, Partner Participation by State (as of December 2022)

USDOT National Address Database (NAD) Map, Partner Participation by State (as of December 2022)

The color-coded key is described as follows:

Thirty-Four (34) Dark Green states have provided address data including: Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Montana, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, Tennessee, Texas, Utah, Vermont, Virginia, Washington, Wisconsin, and Wyoming.

Five (5) Yellow states have not yet submitted data to be processed including: Illinois, Mississippi, Nebraska, Puerto Rico, and West Virginia.

Six (6) Light purple states do not have data to provide including: Alabama, Georgia, Idaho, Louisiana, Missouri, and Nevada.

Seven (7) Dark purple states may have data that is not in the public domain including: Hawaii, Michigan, Minnesota, New Hampshire, Oregon, South Carolina, and South Dakota.

Hashed lines over Five (5) states represent Tribal or local-level participation rather than state-wide participation including: Louisiana, Minnesota, Missouri, South Carolina, and South Dakota.

Note that not all states have 100% coverage.

USDOT National Address Database (NAD) Map, Processing Status by County (as of December 2022)

The map includes a color-coded key that identifies the NAD status level by county.

The color-coded key is described as follows:

Dark Green color indicates submitted address data has been processed for the following Eighteen (18) whole states: Arizona, Connecticut, Delaware, District of Columbia, Indiana, Maine, Massachusetts, Montana, New Jersey, New Mexico, New York, North Carolina, Ohio, Rhode Island, Tennessee, Utah, Vermont, and Virginia; and **Twenty-One (21) partial states including parts of:** Alaska, Arkansas, California, Colorado, Florida, Iowa, Kansas, Kentucky, Louisiana, Maryland, Minnesota, Missouri, North Dakota, Oklahoma, Pennsylvania, South Carolina, South Dakota, Texas, Washington, Wisconsin, and Wyoming.

Light Yellow color indicates data has not been provided for processing yet and remains 'In Queue' status for the following Five (5) whole states: Illinois, Mississippi, Nebraska, Puerto Rico, and West Virginia; and Eight (8) partial states including parts of: Alaska, California, Florida, Kentucky, Oklahoma, Pennsylvania, Texas, and Washington.

Light Purple color indicates data does not exist or is not part of the statewide program for the following Four (4) whole states: Alabama, Georgia, Idaho, and Nevada; and **Seven (7) partial states including parts of:** Arkansas, Colorado, Iowa, Louisiana, Missouri, Wisconsin, and Wyoming.

Dark Purple color indicates the data may not be in the public domain for the following Four (4) whole states: Hawaii, Michigan, New Hampshire, and Oregon; and **Seven (7) partial states including parts of:** Colorado, Kansas, Maryland, Minnesota, North Dakota, South Carolina, and South Dakota.

Note that not all states have 100% coverage.

USDOT National Address Database (NAD) Map, Age of Data Submission by State (as of December 2022)

The map includes a color-coded key that identifies the NAD age of data submission by state.

The color-coded key is described as follows:

Dark Green color indicates the newest data is less than Six (6) months old for the following Twenty-Nine (29) states: Alaska, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Minnesota, Montana, New Mexico, New York, Oklahoma, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, and Wyoming.

Light Green color indicates the newest data is less than One (1) year old for the following Six (6) states: Arizona, Indiana, Iowa, Missouri, North Dakota, and Rhode Island.

Yellow color indicates the newest data is less than Two (2) years old for the state of: New Jersey.

Orange color indicates the newest data is less than Three (3) years old for the state of: North Carolina.

Red color indicates the newest data is at least Three (3) years old for the following Two (2) states: Ohio, and Wisconsin.

Dark Grey color indicates data is not currently provided for the following Thirteen (13) states: Alabama, Georgia, Hawaii, Idaho, Illinois, Michigan, Mississippi, Nebraska, Nevada, New Hampshire, Oregon, Puerto Rico, and West Virginia.

Note that not all states have 100% coverage.
